

Live, learn, and work in one of the nation's most vibrant cities.

ABOUT THE PROGRAM

Georgetown's Semester in San Francisco Program offers a combination of challenging academics, exciting research, and hands-on practice in one of the world's most innovative cities. Students build their professional experience, attend classes with peers from around the country, and earn credit from one of the world's leading academic institutions while sharpening their skills in one of these areas:

Entrepreneurship

This program guides future innovators through the process of entrepreneurship and teaches them the critical skills they need to formulate ideas, navigate hurdles, create a personal brand, and successfully build a business. Students gain a foundational understanding in core areas such as business, marketing, finance, operations, and leadership while applying their skills through workshops and hands-on exercises.

Digital Innovation & Technology

Built around a curriculum that fuses traditional classroom learning with workshops, hands-on field studies, interactive projects, and class trips, this program immerses students at the forefront of digital innovation. Students examine emerging digital trends while learning the tools and technologies they need to participate in the next generation of programs, apps, and digital devices.

Arts & Culture

Featuring a highly experiential curriculum, this program examines the intersection of art, culture, and creativity in the dynamic metropolis of San Francisco. Students develop a deeper understanding of modern-day art through class trips, engaging discussions, hands-on projects, collaborative workshops, and guest speakers from some of San Francisco's renowned museums, music venues, and performing arts centers.

ACADEMIC SEMINAR

Students explore stimulating subjects through interactive presentations, engaging class discussions, hands-on exercises, and guest lectures from prominent entrepreneurs and innovators.

INTERNSHIP

Students spend several days per week at an internship, where they gain valuable real-world experience, develop their professional skills, and build a broad network of industry connections. Georgetown offers a variety of internship opportunities, stretching from the city's burgeoning business community to the technology hub of the Silicon Valley.

RESEARCH SEMINAR

Students complete a guided, independent research project, where they have the opportunity to explore a topic of interest that is relevant to their area of study.

PROGRAM SCHEDULE

Spring or Fall (15 semester credit hours)

Students engage in academic and research pursuits two days a week and intern during the rest of the week.

Summer (6 semester credit hours)

Students intern up to five days a week and take an accompanying academic seminar and research seminar that each meet once a week.

Example Schedule

	M	Tu	W	Th	Fr
Morning	Class: Research Seminar	Intern	Intern	Intern	Class: Research Seminar
Afternoon	Class: Academic Seminar	Intern	Intern	Intern	Class: Academic Seminar
Evening	Class: Internship Seminar	Speaker Event (Optional)		Networking Event (Optional)	

Credits earned through Georgetown's Semester in San Francisco Program are accepted toward degrees at most colleges and universities, at the discretion of the home institution. Students should check their home school's transfer policies prior to registering.

FACULTY

Courses in the Semester in San Francisco Program are taught by a combination of adjunct professors and full-time Georgetown University faculty, who bring their industry experience and expertise into the classroom.

Semester in
San Francisco Program
